Registered name of startup	Elder care on demand llp	Startup Logo	Yes
Mobile No.	7985148338	Stage	Ideation
Brief on the business concept			
Elder Care On Demand LLP is India's first AI-driven, hyperlocal, and human-supported elder life-assistance platform designed to provide complete daily support to senior citizens. With the rapid rise of nuclear families, long-distance caregiving, and the increasing loneliness and dependency faced by elders, there is a clear gap in reliable, trustworthy, and real-time assistance for their everyday needs. Our platform integrates AI hotline assistance, essential deliveries, verified technician visits, companion care, and emergency coordination into one seamless ecosystem. Through our AI hotline, elders can request tasks such as groceries, medicines, home repairs, or even emotional support through positive conversations, bhajan recommendations, or reminders—without needing to navigate complex apps. We operate on a dual revenue system: subscription plans that provide free monthly services (plumber/electrician visits, deliveries, emotional assistance) and pay-on-service options for urgent household tasks. We also partner with local markets, medical stores, and service providers to ensure fast, secure, and trusted execution. By combining technology, compassion, and hyperlocal execution, Elder Care On Demand aims to become India's most dependable support system for senior citizens, ensuring dignity, safety, convenience, and emotional well-being—whether their families live nearby or far away.			
Innovation Model		Business Model Innovation	
Explain Innovation Model			
Our innovation lies in creating India's first integrated AI + human + hyperlocal elder-support ecosystem, combining emotional care, daily essential delivery, home services, and medical assistance under one seamless, subscription-driven business model.
