Startup Details-1			
Name	Noxora FluidTech OPC Private Limited	Email	chauhankshitiz001@gmail.com
DPIIT Recognition Number	DIPP227102	Upload DIPP Certificate	Yes
Registered name of startup	Noxora Fluidtech (OPC) Private Limited	Startup Logo	Yes
Mobile No.	6388168811	Stage	Prototype
Brief on the business concept			
Noxora Fluidtech OPC Private Limited is a chemical manufacturing startup focused on advanced fluid and water treatment solutions for automotive, industrial, and commercial sectors. The company aims to provide high quality AdBlue and industrial water treatment chemicals that help industries improve efficiency, reduce emissions, and optimize operational performance. What Problem is the Startup Solving? Industries, transport operators, and water treatment facilities often face issues related to: Poor quality AdBlue affecting vehicle SCR systems Scaling and fouling in RO plants High maintenance costs in industrial water systems Limited availability of reliable and cost-effective specialty chemicals. The company manufactures high-quality and standardized chemical products using controlled formulations and quality testing processes. Our products help: Reduce harmful vehicle emissions Improve RO membrane life Increase industrial system efficiency Lower operational and maintenance costs Focus on quality-controlled manufacturing Cost-effective industrial solutions Multi-sector product applicability Customized chemical solutions for clients Reliable supply chain and scalable production model How Does the Startup Generate Revenue? Revenue will be generated through: Direct B2B product sales Distributor and dealership network Bulk industrial supply contracts Private labeling and manufacturing services Annual supply agreements with industries and fleet operators Stage- early traction (talking to customers and buyers)			
Innovation Model		Process Innovation	
Explain Innovation Model			
Noxora Fluidtech OPC Private Limited follows a *Process Innovation Model* by developing high-quality, standardized, and cost-effective industrial chemical solutions for automotive and water treatment sectors. The company focuses on improving operational efficiency, reducing vehicle emissions, enhancing RO plant performance, and lowering maintenance costs through controlled chemical formulations, quality testing, and scalable manufacturing processes.
