**Organizer:** Women Study Centre & NSS

**Outcome/Impact:**

It led to increased awareness, advocacy, and positive changes in attitudes and practices. The impact includes improved recognition of girls' rights, enhanced educational opportunities, and reduced gender-based discrimination. This initiative has contributed to fostering a more inclusive and equitable community, empowering girls to pursue their aspirations, and challenging traditional gender norms.

Date: 17-10-2021

Number of Participants: 46

The Gender Sensitization initiative conducted on 17-10-2021 aimed to increase awareness and understanding of gender issues, fostering a more inclusive community. With 46 participants actively engaged, the initiative sought to challenge stereotypes, promote gender equality, and create safer and more supportive environments for all individuals.

Through interactive workshops, discussions, and awareness campaigns, participants explored concepts of gender identity, gender roles, and gender-based violence. The initiative also provided opportunities for reflection and dialogue on the impact of gender norms and expectations on individual rights, opportunities, and experiences.

By fostering critical thinking, empathy, and allyship, the Gender Sensitization initiative seeks to dismantle harmful attitudes and behaviors that perpetuate discrimination and inequality based on gender. Moving forward, efforts will continue to promote gender equity and empower individuals to advocate for inclusive policies and practices that uphold the rights and dignity of all genders.

Organizing Committee: Women Study Centre

The Workshop on Cervical Cancer organized by Rovers and Rangers on 01-06- 2022 raised awareness about cervical cancer prevention and early detection strategies within the community. With 32 participants actively engaged, the workshop aimed to educate individuals about the risk factors, symptoms, and screening options for cervical cancer.

Through informative presentations, interactive discussions, and Q&A sessions with healthcare professionals, participants learned about the importance of regular screenings, vaccination against HPV, and lifestyle factors that can reduce the risk of cervical cancer. The workshop also provided resources and support for individuals to access cervical cancer screening services and follow-up care.

By promoting cervical cancer awareness and prevention, the workshop empowered individuals to take proactive steps in protecting their health and well-being. Moving forward, efforts will continue to prioritize women's health initiatives and advocate for policies that ensure equitable access to cervical cancer screening and treatment services for all members of the community.
