## GREEN CAMPUS POLICY

### Preamble

University, envisions a Clean and Green Campus where environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus and beyond the campus. The green campus concept offers the University an opportunity to take the lead in redefining its environmental culture through instilling environmental ethics among students and staff. The University also promotes Clean and Green campus through adopting, practicing and promoting environmental friendly practices among students and staff to generate Eco-consciousness among them and in the world around them.

### Vision

Vision for green campus is to make the campus and its surrounding green and clean and conservation of Nature and natural resources in the surrounding area and educating on how to live Eco-friendly.

### Mission

- To develop an eco – friendly sustainable campus
- To help the students/Faculty understand each individual's responsibility to take an initiative to save the environment.
- To help students/Faculty's take small steps in saving the environment.
- To bring awareness among the students/Faculty about the environmental issues.

### Objectives

- To increase the green cover of the University
- To encourage students/ to keep environment clean.
- To educate students/ staff to create awareness amongst public.
- To make students/ staff understand the importance of environment and its problem areas.

### Approaches:

Improving the green system of the campus in all aspects like

- Make the campus Green gradually increasing the green cover of the University by regular plantation drives in University.
- Reducing the use of vehicles in order to save nonrenewable source of energy.
- Decreasing the use of plastics.
- Promoting the usage of bicycles and walking culture..
- Sensitizing the students/Faculty's to minimize the use of polluting product.
- Increasing the usage of renewable sources of energy such as :
  - improvising the solar plant
  - implementation of biogas plant
  - usage of automatic cut off system with sensors
  - Replacing CFL bulbs with LED bulbs, etc.
- Improvising the waste handling methods so that the waste disposed from University campus do not create any sort of pollution to the environment. The waste includes
  - solid waste of all form from the campus
  - liquid waste
  - biomedical waste
  - Hazardous chemicals from laboratories, etc.
- Improving water conservation facilities of the university such as
  - rainwater harvesting pits
  - surface water conserving facility
  - recycling the waste water from campus

*Nabhis Moin* *Chishti*

→ proper water distribution system in the campus

- Motivating students/staff to adopt environment friendly practices which include paper bags, save electricity, etc.
- Walking pathways and seats at different locations within the campus so that students/staff are open to the effects of environment in their daily interaction.
- "No Plastic", "No Vehicle", "No Smoking, No Tobacco" in campus area. The instructions regarding these to be displayed on boards at various places in the campus.
- Green Audit: Conduction of a Green Audit of University campus to assess the strengths and weaknesses to further the goals of long-term sustainability and a better understanding of the impact of eco-friendly practices.

**Outcomes:**

- Awareness is created about the hazards that are spoiling the environment.
- Students and staff realize their individual responsibilities to save the environment.
- Fuel are saved for the next generation
- Plastic free environment is created and awareness of avoiding plastics is imparted.

**Authorities Concerned:**

1. Vice Chancellor
2. Registrar
3. HODs of all Departments
4. Eco club In-charge
5. NSS In-charge
6. NCC In-charge
7. Rovers/ Rangers Incharge
